Purpose	<ul style="list-style-type: none"> getting started with EA can be difficult, as it is complex software with a number of functionalities difficult to understand. Therefore, we decided to create an educational tool aimed at understanding working with EA on the subject of SMIT represented by a series of videos using the ActivePresenter tool, which can facilitate this initial work with EA and we can avoid discouraging of using this tool. 				
Individual Visions	<ul style="list-style-type: none"> we also fall into the category of people who feel stress when working with EA and by creating this videos we have the opportunity to learn to work with EA better, we would also like to get similar and try working with ActivePresenter. 				
Team Vision	We don't just want to learn to work with EA, we would like to share this experience with future generations of students in this subject. Therefore, we want to present the videos in a simple form, they will deal with the primary UC executable in EA at the beginnings of work in EA.				
Team Mission	Create EA tutorials using ActivePresenter.				
Strategy	<ul style="list-style-type: none"> analysis of work with the ActivePresenter tool selection of topics of individual videos the actual uploading of tutorials making tutorials available to the public 				
End Customer	primarily a SMIT student, anyone with the motivation to learn to work with EA				
Goals and Expectations	<p>The aim of the project is to create a series of 8 videos dealing with basic UC executable in EA during the initial work with this tool.</p> <ul style="list-style-type: none"> Create simple videos to support working with EA thanks to simple and short videos, we will try to attract followers to work with EA motivate followers to expand our idea, in the form of motivation to use the ActivePresenter tool to expand this tutorial and a wider range of topics available to the public try to keep one video in the range of 2-10 minutes to ensure full viewer concentration <p>In terms of complexity, these videos will be about the basic functionalities presented in the form of educational videos, as we ourselves are beginners in this area.</p>				
Solution Description	<p>We will need to create a tutorial:</p> <ul style="list-style-type: none"> ActivePresenter EA motivation to make videos <p>Functional requirements:</p> <ul style="list-style-type: none"> educate people to work with EA <p>Non-functional requirements:</p> <ul style="list-style-type: none"> reducing resistance to working with EA motivate to work with EA to bring into people's minds the idea that the work of EA is not a punishment but can be a good investment in the future 				

Project Roadmaps	<ol style="list-style-type: none"> 1. installation of ActivePresenter and Enterprise Architect tools 2. Familiarize yourself with ActivePresenter 3. Define video themes 4. independent work with EA within the topics, understanding of the problem and its solution 5. recording individual videos 6. making videos available
Reached Results	
Experiences	weak experience working in EA
Positive experiences	
Potential for improvements	<ul style="list-style-type: none"> • extension of the tutorial with more videos
Expected effort	each team member 4 hours per week
Real effort
